ABOUT ME

Motivated final-year BCA student at PSIT College of Higher Education with strong skills in programming and web development. Experienced in projects like a Personal Finance Manager, showcasing problem-solving and teamwork abilities. Quick learner passionate about contributing to the IT sector's growth while enhancing technical expertise.

PROJECT

Personal Finance Manager

- Developed a responsive web application using HTML, CSS, and JavaScript for personal financial management.
- Features include expense tracking, budget setting, and financial summary visualization.
- Designed an attractive login and signup interface with financial-themed animations.
- Focused on enhancing user experience with interactive and intuitive UI design.

EDUCATION
